

ATTEN

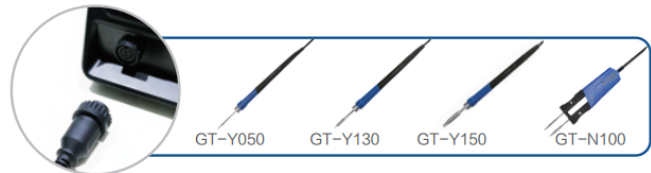

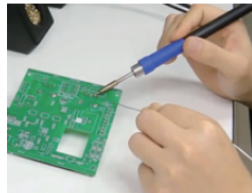

GT-6150

Single channel high- end Intelligent unleaded soldering station

Features:

- Compatible with various type of solderingtools, utility model with multiple functions.
- Max Power is 150W.
- Big silicone buttons operate comfortable and reliable.
- All kinds of parameter data and information in the form of graphics display.
- Can automatically recognize the soldering tools and upload the corresponding parameters.
- Provide 3 groups shortcut temperature to simplify operations.

Automatic identification

◆ Specifications:

Model	GT-6150
Rated working voltage	110VAC/230VAC ±10% 50Hz/60Hz optional
Rated Power	150W
Temperature range	150-480°C/302-896°F
Temperature stability	±2°C/±4°F
Temperature adjustment	Long press to adjust 10 unit at a time; Short press to adjust 1 unit at a time.
Number of channel	1 channel
Standby time	0-120min (default 0)
Dormancy time	0-120 minutes (default 0)
Shortcut temperature	3 groups shortcut temperature
Temperature calibration range	±50°C/±90°F
Password protection setting	Available
Support	Ceiling/Lower limit temperature setting
System language	Chinese/English
Working conditions	Temperature 0-40°C, relative humidity <80%
Storage conditions	Temperature -20-80°C, relative humidity <80%
Dimensions	31.5*25.2*12.7cm
Net weight	Approximately 4KG

◆ Packing List

Soldering desoldering station	GT-6150 host 1 pc
Power cord	1pc
3mm grounding connector	1pc
Certificate of qualification	1pc
User Manual	1pc
