⊗TDK

Inductors for decoupling circuits Multilayer ferrite MLZ series

MLZ2012 type

FEATURES

- O The MLZ series include inductors for decoupling circuits that have top-class DC superimposition characteristics and low DC resistance.
- O They are compatible with wide frequency band noise, from low to high frequency.
- H type products have a rated current that is equivalent to that of wound coils.
- O W type products are the new standard type products that have both large current and low resistance.
- L type products have a resistance up to 60% lower than W type products.
- Operating temperature range: -55 to +125°C (including self-temperature rise)

APPLICATION

Smart phones, tablet terminals, note PCs, various modules such as camera modules, DSCs, video games, portable memory audio devices, navigation systems, PNDs, WLANs, SSDs

O Application guides: Smart phones/tablets
