INDUCTORS

⊗TDK

Inductors for power circuits Wound ferrite SLF series

SLF6028 type

FEATURES

O Magnetic shield type wound inductor for power circuits.

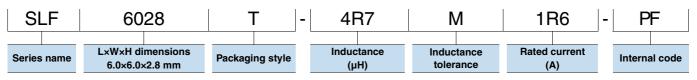

O Product lineup allows for various usages.

○ Operating temperature range: -40 to +105°C (including self-temperature rise)

APPLICATION

O Thin-screen TVs, LCDs, AV equipment, gaming equipment, other electrical devices

PART NUMBER CONSTRUCTION

CHARACTERISTICS SPECIFICATION TABLE

220	±20%	100	0.98	0.26	0.38	SLF6028T-221MR26-PF

Rated current: smaller value of either Isat or Itemp.

Isat: When based on the inductance change rate (30% below the nominal value)

Itemp: When based on the temperature increase (temperature increase of 25°C by self heating)

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

The storage period is less than 6 months. Be sure to follow the sto less).		
If the storage period elapses, the soldering of the terminal electrodes may deteriorate.		
\bigcirc Do not use or store in locations where there are conditions such as	s gas corrosion (salt, acid, alkali, etc.).	
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature does not exceed 150°C. 	e difference between the solder temperature and chip temperature	
 Soldering corrections after mounting should be within the range of If overheated, a short circuit, performance deterioration, or lifespar 	-	
O When embedding a printed circuit board where a chip is mounted the overall distortion of the printed circuit board and partial distortion		
 Self heating (temperature increase) occurs when the power is tu design. 	rned ON, so the tolerance should be sufficient for the set thermal	
 Carefully lay out the coil for the circuit board design of the non-mag A malfunction may occur due to magnetic interference. 	gnetic shield type.	
○ Use a wrist band to discharge static electricity in your body through	n the grounding wire.	
O Do not expose the products to magnets or magnetic fields.		
O Do not use for a purpose outside of the contents regulated in the d	elivery specifications.
