

1W isolated DC-DC converter
Fixed input voltage, unregulated single output

# **FEATURES**

- Continuous short-circuit protection
- No-load input current as low as 5mA
- Operating ambient temperature range: -40  $^{\circ}{\rm C}$  to +105  $^{\circ}{\rm C}$
- High efficiency up to 85%
- Compact SMD package
- I/O isolation test voltage 3k VDC
- Industry standard pin-out
- IEC62368, UL62368, EN62368 approved

F05\_XT-1WR3 series are designed for use in distributed power supply systems and especially suitable in applications such as pure digital circuits, low frequency analog circuits, relay-driven circuits and data switching circuits.

# Typical Characteristic Curves

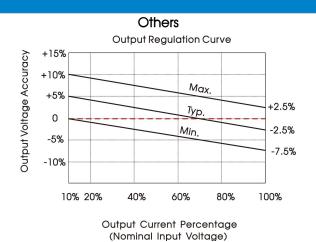

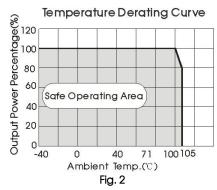

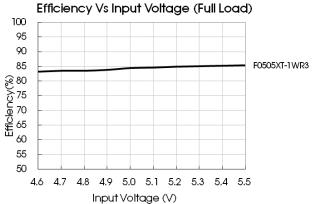

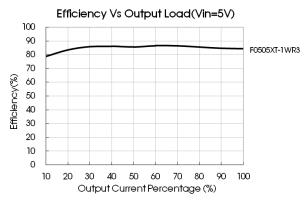

Fig. 1

## Design Reference

#### 1. Typical application

Input and/or output ripple can be further reduced, by connecting a filter capacitor from the input and/or output terminals to ground as shown in Fig.3.

Choosing suitable filter capacitor values is very important for a smooth operation of the modules, particularly to avoid start-up problems caused by capacitor values that are too high. For recommended input and output capacitor values refer to Table 1.

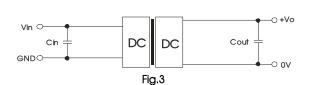

Table 1: Recommended input and output capacitor values

| Vin(VDC) | Cin(µF) | Vo (VDC) | Cout(µF) |
|----------|---------|----------|----------|
|          |         | 3.3/5    | 10       |
|          |         | 9        | 4.7      |
| 5        | 4.7     | 12       | 2.2      |
|          |         | 15       | 1        |
|          |         | 24       | 0.47     |

## 2. EMC (CLASS B) compliance circuit

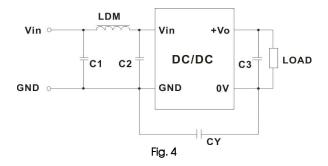

Table 2: Recommended EMC filter values

|                          | Output v | oltage(VDC) | 3.3/5/9    | 12/15/24   |  |  |

#### Notes:

- For additional information on Product Packaging please refer to <u>www.mornsun-power.com</u>. Tube Packaging bag number: 58210024, Roll Packaging bag number: 58200054;
- If the product is not operated within the required load range, the product performance cannot be guaranteed to comply with all parameters in the datasheet;
- The maximum capacitive load offered were tested at input voltage range and full load;
- 4. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%RH with nominal input voltage and rated output load;
- 5. All index testing methods in this datasheet are based on our company corporate standards;
- 6. We can provide product customization service, please contact our technicians directly for specific information;
- 7. Products are related to laws and regulations: see "Features" and "EMC";
- Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
